

SKILLS

- **Programming Languages:** JavaScript, TypeScript, Java, Kotlin
- **Frameworks/Libraries:** React, Next.js, React Native, Redux Toolkit, React Query
- **Styling:** Tailwind CSS, Bootstrap, CSS Modules
- **Version Control:** Git, GitHub
- **APIs:** RESTful APIs, Axios
- **AI Integration:** Prompt Engineering, Streaming responses, OpenAI API, AI-powered UI components
- **Android Development:** Android Studio, XML
- **UI/UX:** Material Design Principles, Figma
- **Languages:** English(Native), Yoruba(Native), German(Beginner), French(Intermediate)

EDUCATION

Advanced Diploma in Software Engineering - Aptech Computer Education (2021 - 2023)

- Relevant coursework: Mobile App Development, Web Development, Object-Oriented Programming, Database Systems, Software Engineering

BSc. in Environmental Botany and Palynology - University of Lagos (2015)

WORK EXPERIENCE

FrontEnd Engineer - Secured Records Management Solutions Ltd (2024 - PRESENT)

- Developed and maintained web apps using JavaScript, TypeScript, React, Next.js, Redux, Tailwind CSS and Bootstrap; integrated REST APIs.
- Implemented AI-powered features via OpenAI API (prompt engineering, streaming responses) and optimized performance with React Query, code-splitting and lazy loading.
- Developed accessible, responsive UI components with semantic HTML, ARIA labels and keyboard navigation.
- Collaborated with designers and backend engineers to deliver production ready features.
- Ensured cross-browser compatibility (Chrome, Firefox, Safari) using BrowserStack and CSS fallbacks.
- Managed complex global state using Redux Toolkit across 10+ modules, reducing prop drilling by 80%.

Intern - FlexiSAF Edusoft Limited (2023)

- Assisted in frontend development tasks, debugging and UI enhancements.
- Gained hands on experience with JavaScript and React.

PROJECT EXPERIENCE

Portfolio Website – ifedolapoajayi.vercel.app

- Built personal portfolio with React and Tailwind CSS showcasing all projects.

Telemedicine Web App

- Developing a healthcare platform for virtual consultations using React and WebRTC, with focus on real-time communication and patient data visualization.

BeyondThePain & SickleReminder App

- Story-sharing platform for sickle cell patients using React and Firebase

GidamMini

- Built a full-featured clothing e-commerce application with product filtering, cart and checkout flow using React and Firebase.

DLC WEBSITE (2024 - 2025)

- Collaborating with a team to develop a website for Digital Literacy Champions CDS using React, Next.js and Tailwind CSS.

ANDROID CITY BUS MANAGEMENT APP (AUG 2022 - JAN 2023)

- Led a 3-member team to develop a bus management app for tracking routes, schedules and passengers.
- Implemented Java (backend), XML (UI) and SQLite (local storage).
