

SKILLS

- **Frontend:** JavaScript, TypeScript, React, Next.js, React Native
- **Styling:** Tailwind CSS, Bootstrap, CSS Modules, shadcn/ui, Figma (design details)
- **Charting & Dashboards:** Recharts, Highcharts, ECharts (familiar)
- **State Management:** Redux Toolkit, React Query, Context API
- **Deployment & Hosting:** Git, GitHub (feature branches, PRs, workflows), Netlify, Vercel (personal projects), Cloudflare (CDN/DNS)
- **Performance:** Lazy loading, code-splitting, SSR, Bundling best practices
- **Frontend Tooling:** Vite, ESLint, Prettier, bundling (Webpack/Turbopack)
- **Other:** REST APIs, OpenAI integration, Prompt Engineering, WebRTC

EDUCATION

Advanced Diploma in Software Engineering - Aptech Computer Education (2021 - 2023)

- Relevant coursework: Mobile App Development, Web Development, Object-Oriented Programming, Database Systems, Software Engineering

BSc. in Environmental Botany and Palynology - University of Lagos (2015)

WORK EXPERIENCE

Frontend Engineer - Secured Records Management Solutions Ltd (2024 - PRESENT)

- Build and maintain production-grade dashboards using React, Next.js, TypeScript and Tailwind CSS, visualizing data via Recharts charting library.
- Design, prototype, refine and ship new features in collaboration with backend developers and product team, ensuring clean API interfaces.
- Build reusable frontend components with clean abstractions and consistent styling (Tailwind + shadcn principles).
- Optimize performance across devices using SSR, lazy loading, code-splitting and bundling best practices.
- Push code to GitHub following feature-branch workflows; collaborate with lead on Netlify deployment pipelines.
- Implemented AI-powered features (OpenAI API, streaming responses) and managed global state with Redux Toolkit across 10+ modules.
- Configured frontend tooling (ESLint, Prettier, Vite) for consistent code quality across the team.
- Ensured cross-browser compatibility (Chrome, Firefox, Safari) using BrowserStack and CSS fallbacks.
- Developed accessible, responsive UI components with semantic HTML, ARIA labels and keyboard navigation.

Intern - FlexiSAF Edusoft Limited (2023)

- Assisted in frontend debugging, UI enhancements and hands-on development with JavaScript and React.

PROJECT EXPERIENCE

Personal Portfolio Website

- Built personal portfolio with React and Tailwind CSS showcasing all projects

Telemedicine Web App

- Built a healthcare dashboard for virtual consultations using React, WebRTC, and Recharts to display patient analytics.

BeyondThePain

- Story-sharing platform for sickle cell patients using React and Firebase
- Deployed and maintained frontend apps via Vercel with automatic CI/CD from GitHub.

UrbanThreads

- Clothing e-commerce store with cart, checkout and product filtering

DLC WEBSITE

- Collaborating with a team to develop a website for Digital Literacy Champions CDS using React, Next.js and Tailwind CSS.
